Cortex AI Agent 10:24 AM

Hello Alex! I've loaded your project files for the 'Neo-Interface' design system. How can I assist you with the implementation today?

You 10:25 AM

Can you summarize the core principles from the 'Brand_Guide.pdf' I uploaded earlier? I need to make sure the primary button states align.

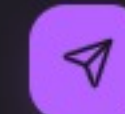

Cortex AI Agent 10:26 AM

According to your Brand_Guide.pdf, core button principles focus on 'Tactile Feedback' and 'Neon Luminance'. Primary buttons should use HSL(272, 100%, 69%) as the base color with a 12px blur glow on hover. Would you like me to generate a CSS snippet for these states?

GPT-4o Agent Active

Ask Cortex anything... (e.g., 'Draft a design doc' or 'Analyze my code')
